Mid-Revision I Recitation

Class_____ No._____ Name_____

Dialogue

Wind: I am stronger than you, Sun.
Sun: No way. I am stronger than you, and I will show you.
Do you see that man down there?
Can you make him take off his coat?
Wind: Of course I can.
Man: Oh, it's cold.
Sun: The man didn't take off his coat.
Man: Gee, it's even colder.
Sun: Ha, ha, he still has his coat on.
Wind: Okay, now you try.
Man: How strange! It's getting warmer now!
Wind: See, the man still has his coat on.
Sun: Just wait. You'll see.
Man: Oh, now it's hot.
Sun: See, I did it! I did it! The man took off his coat!

Chant

Aunt Picky

Aunt Picky wants a pumpkin. Oh which **one** will I buy?
The big one? The small one? The fat one? The tall one? I just can't decide!
Is this one as good as that one? It's better(bigger) than the fat one.
It's bigger than the next one. Oh, which one is the best one?!
She looks and thinks… And thinks and looks…
And there in front of her eyes,
She sees the best of all the pumpkins to put into her pie!
Look, lady which one do you want? Asks the pumpkin man.
I need to go home as soon as I can. Aunt Picky frowns and cries a lot.
"**I'm** sorry," she says, "but I forgot."

Passage

On this farm, farmers grow lettuce on shelves. The shelves can be up to 15 levels high! Special LED lights help the lettuce plants grow faster. In fact, the lettuce is ready to pick even sooner than on an outdoor farm. Another big advantage is that indoor farms don't use nearly as much water as outdoor farms.
